

Smile With Peace Of Mind

Despite regular retainer wear, it's possible for teeth to move over time, requiring a new retainer. Maybe you've had dental work done and your old retainer no longer fits, or you've accidentally lost or broken your retainer. Whatever the case may be, our **Retainer Assurance Program** can ensure your smile investment for up to 10 years by offering retainer replacement or repair for an affordable copay amount.

Frequently Asked Questions

When can I purchase retainer insurance?

The **Retainer Assurance Program** can be purchased when starting treatment or anytime during treatment, up until appliances are removed on "removal day."

What is the normal price for two sets of retainers?

Our normal price for two sets of retainers is \$1,000, making this a great deal!

Is Retainer Assurance covered by insurance?

No, insurance will not cover multiple sets of retainers.

I lost my retainers. Can I still purchase Retainer Assurance?

Yes! If it has 0-12 months since "removal day," you can still purchase **Retainer Assurance** and receive 2 sets of retainers when you sign up! An additional \$200 fee applies for enrollment after "removal day," making it \$999 to join.

What if I buy Retainer Assurance but move before I complete treatment?

A full refund will be issued to patients who have not utilized their retainers.

What if I move a year after finishing treatment, can I still use the program?

You can still use your **Retainer Assurance Program**, and we can ship your retainers to you for a \$25 shipping fee. Any touchup aligners would require a new scan in our office.

If I no longer want Retainer Assurance, but have received my retainers, can I get a refund?

No, once you have completed treatment, no refunds are eligible.

I need a new retainer – should I come in for a new scan or use my old molds?

If you were happy with the fit of your previous retainer, you can use your old models. If there are any concerns with the fit of your previous retainer, a new scan is recommended in our office.

Retainer Assurance for \$799 includes:

- 2 sets of retainers at the time of completing active treatment or enrollment
- Free retainer replacements in the event of dental work
- Free digital storage of your retainer models for 10 years
- Additional retainers available for \$35 copay each (normally \$250 each buying a-la-carte)
- Bonded wire retainer repair copay is \$25 (normally \$100)
- Touch up aligners (typically 5 or less) are covered at \$35 copay each
- \$25 shipping available for members living out of state

Benefit example:

John lost his lower retainer and returns to the office with slightly crooked lower teeth. 5 lower aligners are made at \$35 each and 1 lower retainer is fabricated.

John's total cost:

5 aligners x \$35
+ 1 retainer x \$35 = \$210
